ADM-2.1

DD/S&T-1464-64

8 May 1964

MEMORANDUM FOR: Assistant Director for Special Activities

SUBJECT : Reprogramming of DD/S&T Funds

25X1A1A

1. In our review on 6 May with your representatives on the status of OSA FY 1964 funds, it was disclosed that [redacted] is being held as a contingency against a charge in an approximate amount which may, or may not be made, by the [redacted] covering certain communications facilities provided by that Service to OSA in FY 1964. Similar services by the [redacted] for FY 1963 were not billed and it was the opinion of your representatives that the charges may be waived for this year also.

25X1A12A

2. We have discussed this situation with O/OPAM and have received verbal assurance that, if this amount is de-obligated and freed for utilization in priority R&D efforts, OPAM would cover OSA for any subsequent [redacted] billings out of year-end non-DD/S&T savings.

3. DD/S&T has submitted recommendations to the Executive Director--Comptroller for FY 1964 supplemental funding to finance priority R&D efforts of common interest within the Directorate. Before any additional funds are made available, DD/S&T must demonstrate that its funds are completely committed and no potential savings can be found. Accordingly, unless you have urgent need for these funds, we propose to request DIR/OPAM to make them available for DD/S&T designated priority R&D efforts.
